

COMPANY OVERVIEW

Secure Your Growth

“

With comforte's enterprise solution, I can do anything, with any data, and any amount of data. I want to be able to tokenize anything I want, without any issue, and this is why we bought the solution.

- CISO, Retail Industry

”

OUR VISION

To enable individual freedom and trust in a digital world.

OUR MISSION

We provide software solutions to protect and manage data that organizations have been entrusted with.

hat made the difference for us was finding a solution that not only offered a state-of-the-art data protection, but also provided application transparency that meant the solution could be integrated seamlessly into our existing applications.

- Gregor Pirc, IT Manager at Bankart

WHO WE ARE

We protect your most valuable asset - Your Data

When it comes to the security of your data, we make no compromises. We know how to reliably protect your data, so it doesn't fall into the wrong hands.

As the leader in data-centric cybersecurity solutions, we make sure your data is safe everywhere and all the time. We don't prevent access to your data - we protect it. Our patented, leading encryption technology is format-preserving, enabling secure processing and analysis of your protected data. Comforte is committed to keeping data secure while preserving data utility.

OUR STORY

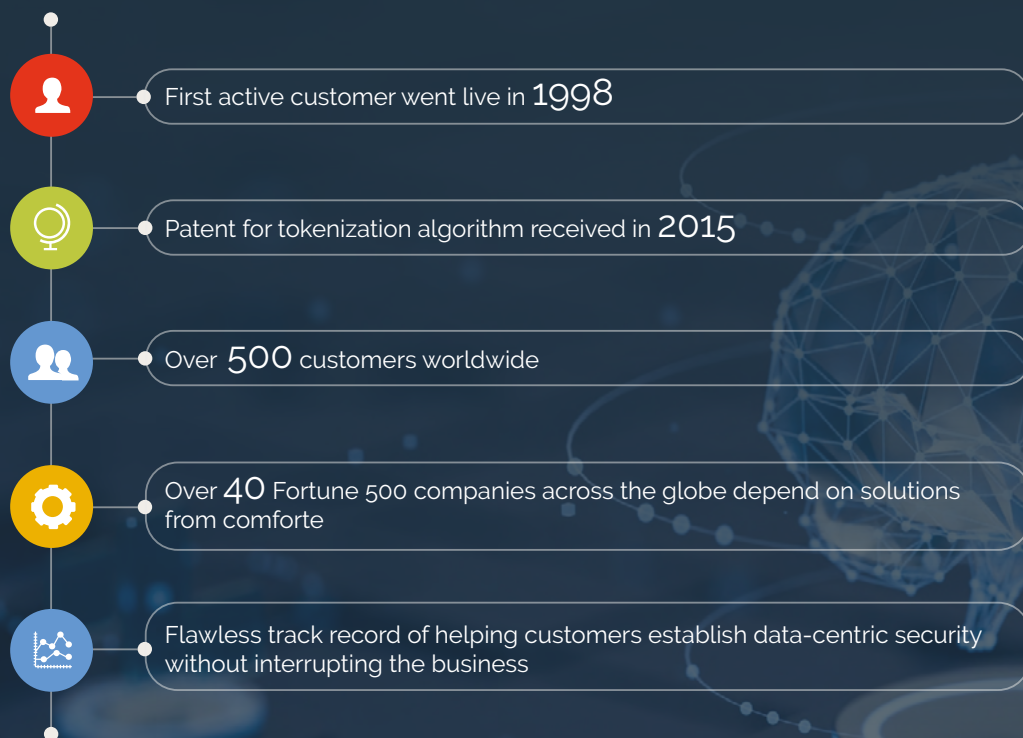

From connecting systems that never stop to securing personal data worldwide

comforte was founded in 1998 by the creators of a connectivity solution for mission-critical systems. A logical next step for comforte was to not only connect systems, but to also make sure that communication is always done in a secure fashion. Organizations around the globe are running their ATM and Point-of-Sale networks securely thanks to comforte.

As our experience with securing data in motion increased, we decided to extend our technology to securing data at rest as well. Finally, after deploying our solutions at many organizations worldwide over the years, we took our portfolio one step further and created a data security platform that seamlessly integrates into the most modern cloud native environments as well as traditional core systems.

Building on more than 20 years of experience in unlocking more value from systems that never stop, comforte has evolved into a market leader for data security and cloud native tokenization. We now proudly serve over 500 enterprise customers across the globe.

Our track record since entering the data protection market:

OUR SOLUTIONS

Security Powered Innovation

As a leading data security software company, we offer innovative technology to protect data from threats, while preserving its utility for processing and analytics.

comforte Data Security Platform

The comforte Data Security Platform provides advanced data discovery and protection capabilities, helping organizations to achieve compliance with privacy and data protection regulations, reduce risk of data breaches, and enable secure usage of data for business applications and analytics.

“

C

omforte offers impeccable support which has helped make the implementation process go very smoothly.

”

OUR TEAM

Michael Deissner
CEO

Since October 2016, Michael Deissner has served as CEO of comferte AG and has successfully led the company through a period of immense change and progress.

Mr. Deissner has a long history of successfully growing organizations in demanding environments. He began his career with a degree in business administration serving as the executive assistant at SAP in Walldorf, Germany where he also held positions in escalation management and worked in sales as a global account manager. Before joining comferte, he led the biotechnology company Cytonet for sixteen years as CEO and CFO.

Jochen Soder
CFO

Jochen Soder is CFO at comferte and is responsible for managing the company's global financial operations.

After earning his degree in business administration, his career included roles as Head of Finance, Finance Director and VP of Finance & Operations across various industries including logistics, athletics, consumer and enterprise software. Mr. Soder is a proven manager, mentor, and motivator with nearly 20 years of leadership experience at globally operating organizations.

Michael Horst
Co-Founder & Chief Architect

Michael Horst is Chief Architect and has been the driving force behind innovation at comferte since he co-founded the company in 1998.

Mr. Horst has almost 30 years of experience in application development for the HPE NonStop and Microsoft Windows platforms and was the originator and architect of comferte's very first connectivity solution. Throughout the years, he has helped comferte grow and extend its product line to become a leading provider of enterprise data protection, digital payments enablement, and HPE NonStop middleware.

Henning Horst
CTO

Henning Horst (CTO) is an IT security veteran who started his career as a systems analyst at Comferte. Over the years, he held various positions like Solutions Architect, SVP Security, R&D Director, and since last year CTO. Besides his deep expertise in IT security generally, and data security in particular, Henning has strong business development and leadership skills. This unique mix of capabilities have allowed him to lead product strategy and organizational transformation within comferte. Henning is the author of two data security related patents and a co-editor of the ANSI X9.119-2 tokenization standard.

OUR CORE VALUES

Humane

Ambitious

Smart

Humble

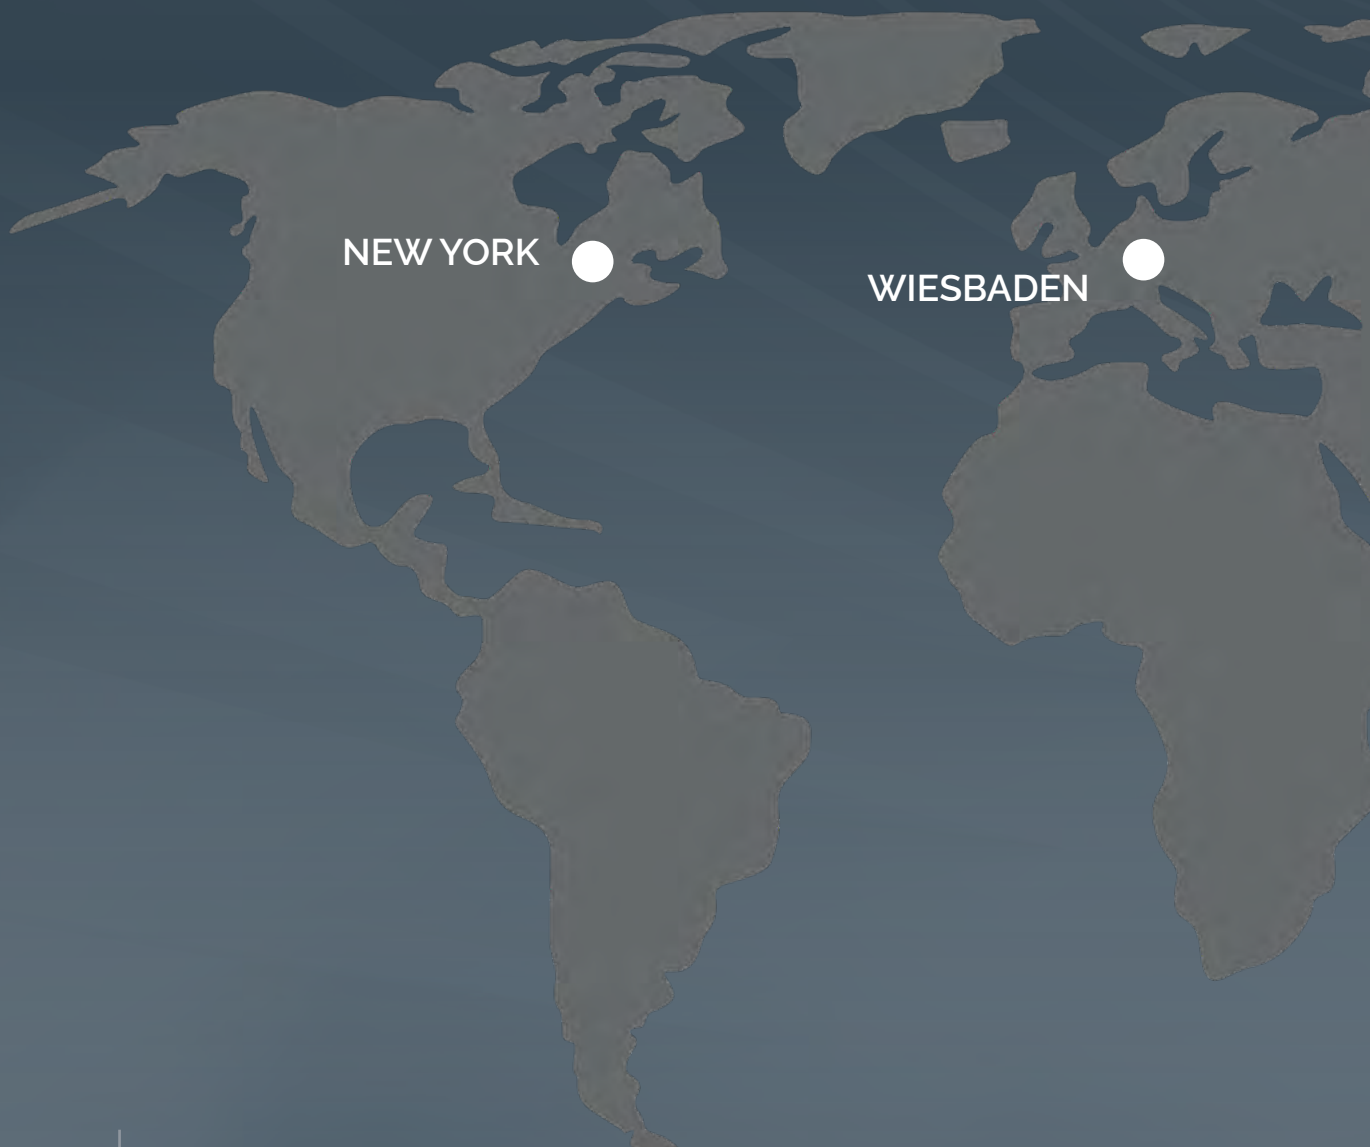

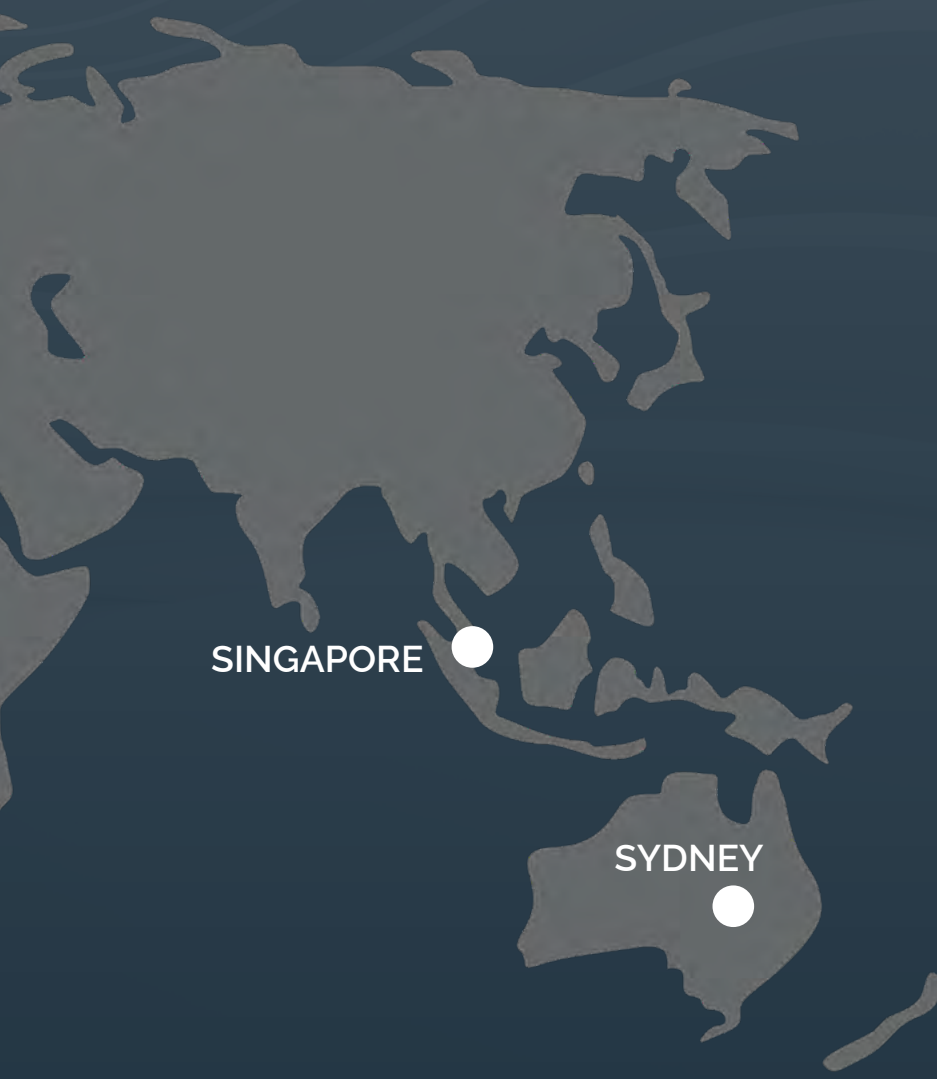

Strong personal relationships and trusting each other are elemental in a digitized world. And this is not about humanizing technology. We aim at establishing long time partnerships with our people and our customers.

Our customers include:

- ▶ The 3 largest credit card processors in the world
- ▶ 27 of the 50 largest banks in the world
- ▶ 2 of the 10 largest retailers in the world
- ▶ 3 of the top 6 Canadian & Latin American payment processors
